

YOUR
FUTURE SKIN
STARTS FROM
WITHIN™

ADVANCED
NUTRITION
PROGRAMME™

OUR APPROACH

Our supplement journey starts in the Skin Health Research Centre at the International Institute for Anti-Ageing. We research, trial and test beyond expectations to synergise supplement solutions for you and your skin.

Every capsule delivers cutting-edge results, working with a sustainable mindset to protect our planet. The foundations of Advanced Nutrition Programme™ are based on four key principles: Potency, Purity, Production and Packaging.

SYMBOL KEY

DAIRY
FREE

GLUTEN
FREE

VEGAN

VEGETARIAN

KOSHER

PURITY

We employ a pharmaceutical approach to testing, which ensures our products exceed industry expectations for food supplements. We triple test before, during and after production to ensure impeccable quality. Each ingredient is screened for contaminants, heavy metals and pathogens. Ingredients are never genetically modified, irradiated or tested on animals and our supplements contain no gluten or artificial flavours.

POTENCY

We are skin researchers so formulate supplements that work. Our products have impactful levels of ingredients that are easily absorbed by the body to support skin health and feed your future skin from within. Our R&D team synergise together evidence-based ingredients and conduct detailed case studies on effectiveness at our in-house Skin Health Research Centre.

PACKAGING

Our supplements are good for you and good for the environment. The pots housing our supplements are made from 100% recycled and recyclable card from an FSC (Forest Stewardship Council) approved paper mill and are made to food grade standards. In addition, our pots have a foiled sealed top for freshness. We also use eco-friendly vegetable inks for all our printing.

PRODUCTION

Our products go over and above the standards set by the industry at every step of the production. Each product and all ingredients are fully traceable, and are packaged at our climate-controlled facility in the UK. This location is GMP (Good Manufacturing Practice) certified and is registered with organisations such as US FDA and Health Canada – both of which demand the highest standards of production and product.

OUR VALUES

Fearless persistence in innovation

Trialing and testing beyond expectation

Uncompromising quality and integrity

Respectful of the world we live in

SKIN RANGE

Every hour, our body makes over 200 million skin cells and we believe that beautiful, healthy skin starts from within.

Synergised by our experts with over 100 years of combined experience between them, our Skin Range of supplements is segmented into two sections

DAILY SKIN HEALTH

For all skin types and ages

TARGETED SKIN SOLUTIONS

For specific skin concerns

Designed to be synergised together, it is possible to combine Daily Skin Health supplements with formulas from the Targeted Skin Solutions range for optimal results.

Advanced Nutrition Programme™ products are not intended to diagnose, treat, cure, or prevent any disease. Every person is different and results may vary.

DAILY SKIN HEALTH

Irrespective of skin type and age, our skin experts recommend five key supplements for overall skin health. This collection features evidence-based ingredients such as vitamin A, antioxidants, omega-3 fatty acids, beneficial bacteria and a broad-spectrum multi-vitamin.

Discover the complete range of Daily Skin Health formulas in single supplements, duo packs and comprehensive Skin Box format.

SKIN VIT A+ THE FIRST STEP IN ANY SKINCARE REGIME

Vitamin A is one of the most important nutrients for skin health.

Skin Vit A+ is a staple skincare supplement suitable for all skin types. Vitamin A helps with skin cell renewal and promotes skin rejuvenation. Vitamin D has been added to Skin Vit A+ to support bone, muscle and immune health.*

Available in 60 capsules.

SKIN ANTIOXIDANT SAFEGUARD SKIN FROM THE INSIDE OUT

Skin Antioxidant is formulated with seven super plant nutrients. Just as plants need antioxidants to protect them from damaging UV rays, so does your skin. Any source of light, even artificial, creates free radicals which can cause premature ageing.

Help safeguard your skin from the inside out and keep it looking younger for longer.

Available in 60 capsules.

SKIN COMPLETE SKIN POWER PARTNERSHIP DUO

Skin Complete is a duo containing two supplements - Skin Vit A+ and Skin Antioxidant - and is the first step in any good skincare routine. Crammed with a multitude of nutrients, including vitamins A and D, as well as antioxidants which help safeguard the skin for a healthy looking complexion.

Available in 120 and 240 capsules.

Our internal study on Skin Complete found a:

45%
IMPROVEMENT IN
HYDRATION

31%
IMPROVEMENT IN
TEWL

Results based on a marketing survey conducted over 12 weeks. Measurements were taken using the Courage & Khazaka equipment and facial imaging equipment.

BESTSELLER

SKIN OMEGAS+ PURE SKIN HYDRATION & HEALTH

Skin Omegas+ is an excellent all-rounder for overall skin health. It supports all skin types and ages, and is particularly recommended to help to nourish dry skin.

Formulated with vitamin A, a key ingredient for skin health, as well as omegas 3 and 6 which are important for skin integrity, a healthy lipid layer and a smooth, luminous complexion.

Skin Omegas+ is made with premium, clinically researched omega 3 from EPAX, a world leading supplier known for its purity, quality and innovation. They hold a Friend of the Sea certificate, so you can be sure the omega 3 is sourced using methods that conserve marine habitats and resources.

Available in 60 and 180 softgels.

"I have been taking Skin Omegas+ ... for my excessively dry skin. It has completely changed my skin! Everyone has noticed the improvements and tells me how much better my skin looks. I feel so much more confident in myself and comfortable in my skin."

Advanced Nutrition Programme™ Customer

SKIN SELECT COMPLETE SKIN GLOW

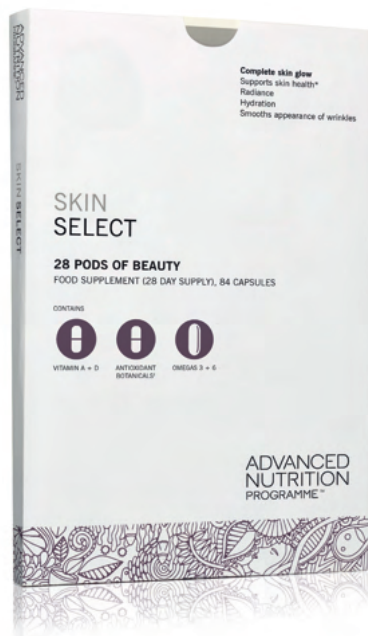

Skin Select contains our three essential skin supplements for a healthy*, smooth and hydrated complexion. Following years of research, our team have succinctly synergised a combination of three specific supplements in daily convenient, tear-off beauty pods.

Each pod features a daily dose of:

- Skin Vit A+
- Skin Antioxidant
- Skin Omegas+

Designed for individuals with an on-the-go lifestyle who are looking for an additional dimension to their skin, beauty and wellness regime for skin health*.

28 day supply with 84 capsules.

SKIN YOUTH BIOME™ HAPPY GUT, HEALTHY SKIN

Skin Youth Biome™ harnesses pioneering microbiome technology to support the skin from deep within. The supplement is formulated with a combination of four scientifically studied bacterial strains that are unique to the Advanced Nutrition Programme™. Each of these specifically selected for its benefits to skin health.

In addition, Skin Youth Biome features vitamin C which supports skin collagen formation. This combination of five billion live cultures and vitamin C work in synergy to give a smoother, more youthful looking complexion.*

Available in 60 capsules.

SKIN VITALITY

THE MODERN MULTI-VITAMIN

Skin Vitality is our new, modern multi-vitamin which delivers a total of 28 smart nutrients in convenient, one-a-day clean capsules for total skin, nail, hair, body and wellbeing support.

Inspired by innovations in supplement technology, the Advanced Nutrition Programme™ experts introduced this new, enhanced multi-vitamin to deliver even more potent benefits for the whole body.

The plant powered, skin smoothie blend of ingredients includes bilberry, broccoli powder, acai berry and spinach leaf to support skin health.

As a daily skin health essential, Skin Vitality provides targeted support for busy and demanding lifestyles, with a comprehensive nutrient synergy to meet the multitude of modern-day nutritional demands.

Available in 60 capsules.

“Even after only a few days of taking I have much more energy”

Advanced Nutrition Programme™ Customer

TARGETED SKIN SOLUTIONS

With over 100 years combined experience in the nutrition and professional skin care industries, our R&D team have developed a range for specific skin concerns such as:

- Problem Prone
- Ageing
- Brightening
- Hydration
- Sensitivity

These supplements can be used in conjunction with our Daily Skin Health range for optimal results.

BESTSELLER

SKIN ACCUMAX™ PROBLEM SKIN

Skin Accumax™ is an award-winning, patented skincare supplement containing vitamins A, C and E with the phytonutrient DIM. It has been formulated for those with problem skin and works from the inside out to support healthy skin.

TARGETS: PROBLEM SKIN

Available in 60, 120, 180 and 400 capsules.

“Skin Accumax™ has made a huge difference to my complexion. People have really started to notice and I’m so happy. It has really boosted my self-esteem and I can’t thank you enough.”

Advanced Nutrition Programme™ Customer

FOR PROBLEM SKIN

HELPS SUPPORT HEALTHY SKIN

TARGETS SKIN ALL OVER FACE, CHEST AND BACK

NO HARSH CHEMICALS

SKIN CLEAR BIOME™ HAPPY GUT, CLEAR SKIN

The four unique bacteria and yeast strains in Skin Clear Biome™ have been selected for their benefits on the skin, as well as for their natural resistance to stomach acid. These strains are combined with zinc to target problem and stressed skin by supporting and balancing from the inside out.

The strains sit within a protective matrix which provides superior protection, allowing the live cultures to reach the small intestine where they are needed most.

**TARGETS: PROBLEM SKIN, STRESSED SKIN,
COMPROMISED SKIN**

Available in 60 capsules.

Our internal study on Skin Clear Biome™ found a:

42%
REDUCTION IN
FOREHEAD SEBUM

32%
REDUCTION IN
NOSE SEBUM

28%
REDUCTION IN
CHIN SEBUM

Results based on a marketing survey conducted on 14 participants (13 women, 1 man), aged 19 - 40 over 8 weeks. Measurements were taken using the Courage & Khazaka equipment and facial imaging equipment.

“Really boosted my confidence, lots of people have noticed and over the last 8 weeks, I have made more progress on my skin than I have over seven years”

Advanced Nutrition Programme™ Trialist

SKIN COLLAGEN SUPPORT ACTIVATE YOUR SKIN'S COLLAGEN

Harnessing the synergy of five ingredients, this supplement helps to build and safeguard collagen, helping to maintain levels for supple, younger-looking skin. These plant-based capsules are packed with a clever cocktail of vitamin C, zinc, MSM, grapeseed extract and melon concentrate which is rich in SOD (Superoxide dismutase). These ingredients have over 150 studies attributed to their effectiveness of ingredients on skin.

TARGETS: AGEING SKIN

Available in 60 capsules.

SKIN VIT C POWERED BY THREE

Powered by three ingredient technologies: vitamin C, zinc and acerola berry in a daily dose vitamin capsule to help brighten dull-looking skin. By synergising these ingredients together, Skin Vit C offers an array of benefits to all skin types. This vitamin supplement is recommended for anyone looking to enliven dull skin, and those concerned with premature ageing, uneven skin tone and environmental aggressors.

TARGETS: BRIGHTENING AND AGEING SKIN

Available in 60 capsules.

SKIN MOISTURE LOCK™ UNLOCK YOUTHFUL SKIN

Patent pending skin supplement that combines hyaluronic acid with ceramides. Hyaluronic acid works from the inside out to reduce the appearance of wrinkles and plumps skin. Meanwhile ceramides waterproof the skin. The result is a more youthful complexion that is smooth and supple.

TARGETS: HYDRATION, SENSITIVITY AND AGEING

Available in 60 softgels.

Our internal study on Skin Moisture Lock™ found a:

64%
IMPROVEMENT IN
HYDRATION

28%
REDUCTION IN
WRINKLE DEPTH

Results based on a pilot study conducted on 12 participants aged between 30 – 61 over 12 weeks. Measurements were taken using Courage + Khazaka equipment and were taken at the beginning of the pilot study and at the end of the 12 weeks.

“Fine lines and wrinkles feel improved, skin felt less dry”

Advanced Nutrition Programme™ Trialist

* European Food Safety Authority - authorised health and Nutrition claims

Biotin

Contributes to normal energy-yielding metabolism as well as normal functioning of the nervous system. Contributes to normal macronutrient metabolism and to the maintenance of normal hair and skin.

Calcium

Contributes to normal energy-yielding metabolism. Also contributes to normal blood clotting, muscle function, neurotransmission and to the function of digestive enzymes. It plays a role in cell division and specialisation and is needed for the maintenance of normal bones and teeth. It helps to reduce the loss of bone minerals in post-menopausal women. Low bone density is a risk factor for osteoporotic bone fractures.

Choline

Contributes to normal homocysteine metabolism and to normal lipid metabolism. Also contributes to the maintenance of normal liver function.

Chromium

Contributes to normal macronutrient metabolism and to the maintenance of normal blood glucose levels.

Copper

Copper contributes to the maintenance of normal connective tissues and to normal energy-yielding metabolism. It contributes to normal functioning of the nervous system.

DHA/ EPA

Both EPA and DHA contribute to the maintenance of normal blood pressure and to the normal function of the heart.

DHA contributes to the maintenance of normal blood triglyceride levels, normal brain function and to the maintenance of normal vision. Maternal intake also contributes to the normal development of the brain and eye of the foetus and of breastfed infants.

Folic Acid

Supplemental folic acid intake increases maternal folate status. Low maternal folate status is a risk factor in the development of neural tube defects in the developing foetus.

Iodine

Contributes to normal cognitive function and normal energy-yielding metabolism. It contributes to the normal functioning of the nervous system and to the normal production of thyroid hormones and normal thyroid function. Also contributes to the maintenance of normal skin.

Iron

Contributes to normal cognitive function and to the normal function of the immune system. It plays a role in the process of cell division. It contributes to the formation of red blood cells and haemoglobin and to normal oxygen transport in the body. Also contributes to normal energy-yielding metabolism and to the reduction of tiredness and fatigue.

Manganese

Contributes to normal energy-yielding metabolism, the maintenance of normal bones and the normal formation of connective tissue. Also protects cells from oxidative stress.

Magnesium

Contributes to the reduction of tiredness and fatigue. Also contributes to electrolyte balance and normal energy-yielding metabolism. It contributes to the normal functioning of the nervous system, normal muscle function, protein synthesis and to the maintenance of normal bones and teeth. It also plays a role in the process of cell division.

Molybdenum

Contributes to normal sulphur amino acid metabolism.

Niacin

Contributes to normal energy-yielding metabolism as well as normal functioning of the nervous system. Protects cells from oxidative stress and contributes to the reduction of tiredness and fatigue. Contributes to the maintenance of normal skin.

Pantothenic Acid

Contributes to normal energy-yielding metabolism. It contributes to normal mental performance and to the reduction of tiredness and fatigue. It also contributes to normal synthesis and metabolism of steroid hormones, Vitamin D and some neurotransmitters.

Riboflavin

Contributes to normal energy-yielding metabolism as well as normal functioning of the nervous system. Maintains normal red blood cells, mucous membranes and skin. Contributes to the maintenance of normal vision and metabolism of iron.

Selenium

Contributes to the maintenance of normal hair and normal nails. Also contributes to the normal function of the immune system and to normal thyroid function. It protects cells from oxidative stress.

Thiamine

Contributes to normal energy-yielding metabolism as well as normal functioning of the nervous system and heart.

Vitamin A

Maintains normal skin and vision. Also contributes to the normal function of the immune system and plays a role in the process of cell specialisation.

Vitamin B12

Contributes to normal energy-yielding metabolism as well as normal functioning of the immune and nervous systems. Also contributes to normal homocysteine metabolism and to normal red blood cell formation. It plays a role in the process of cell division and contributes to the reduction of tiredness and fatigue.

Vitamin B6

Contributes to normal energy-yielding metabolism, the normal functioning of the immune and nervous systems and to the formation of normal red blood cells. Contributes to normal homocysteine, protein and glycogen metabolism.

Also contributes to the reduction of tiredness and fatigue. Vitamin B6 also contributes to the regulation of hormonal activity.

Vitamin C

Maintains the normal function of the immune and nervous systems. Contributes to normal collagen formation for the normal function of skin. Also contributes to normal energy-yielding metabolism. Protects cells from oxidative stress and contributes to the reduction of tiredness and fatigue.

Vitamin D

Contributes to the normal absorption of calcium and phosphorus and contributes to the maintenance of normal blood calcium levels. Also contributes to the maintenance of normal bones and teeth as well as the maintenance of normal muscle function.

Vitamin E

Protects cells from oxidative stress.

Vitamin K

Maintains normal bones as well as normal blood clotting.

Zinc

Contributes to normal DNA synthesis, normal fertility and reproduction, normal immune system function and normal cognitive function. Contributes to normal acid-base and carbohydrate metabolism. Zinc also contributes to normal macronutrient, fatty acid and vitamin A metabolism. It contributes to normal protein synthesis while it maintains normal bones, hair, nails and skin. It maintains normal testosterone levels in the blood, maintains normal vision. It protects cells from oxidative stress and plays a role in the process of cell division.

A WORD FROM OUR FOUNDER

Founder and Managing Director of the Advanced Nutrition Programme™, David Alpert, observed: “I am personally saddened and concerned by the disastrous effect that plastic has on our increasingly fragile eco-system. As a keen diver and marine photographer, I am particularly appalled by the impact on our oceans.

I believe every business can implement changes that will make a difference. We are working towards completely eliminating plastics from our range of products. Our Advanced Nutrition Programme™ brand now represents a philosophy that is both good for the skin and good for the planet.

THE WAY IT SHOULD BE”.
